SOFTWARE DEVELOPER

+2348132283377 | belloolamideakinniyi@gmail.com | IBADAN, NIGERIA

EXPERIENCE

Timbu Tech | Frontend Developer

Remote

Nov. 2023 – Present

- Developing a user-friendly and intuitive bug reporting interface, allowing users to easily submit bug reports along with necessary information with Next.js and chrome extension APIs
- Working on a video publishing software with Next.js and chrome extension APIs

Zuri HNGx | Software Developer Intern

Remote

Sept. 2023 – Oct. 2023

- Built a screen recording chrome extension that save users recording to a database.
- Collaborated with cross-functional teams to develop a fully functional web app for the screen recorder chrome extension.
- Implemented context API for state management that made collaboration seamless
- Synced users from the web app to the chrome extension

EnoverLab | Software Developer Intern

Remote

Feb. 2023 – August 2023

- Developed a user-friendly and responsive website to assist pregnant women and nursing mothers in accessing vital information and resources.
- Utilized React.js to integrate Google Maps API, enabling users to easily locate the nearest gynecologists and healthcare facilities in their vicinity.
- Collaborated closely with the design team to create a visually appealing and intuitive website layout that resonated with the target audience.

Monvid | Full Stack Developer

Ibadan, Nigeria

Oct. 2021 – March 2023

- Developed a robust e-commerce website for hotel delivery using React.js, Express.js, and MongoDB.
 - Implemented server-side functionalities using Express.js to handle HTTP Requests and create APIs for seamless data retrieval and manipulation.
 - Conducted extensive testing and debugging to identify and resolve any software issues, ensuring high quality and reliable performance.
-

PROJECTS

• HelpMeOut

Spear headed a frontend team of 8 to develop a fully functional chrome extension for screen recording. User can record and get transcript of their recording. They can share the recording with others via email and social media.

<https://helpmeout.tech/>

• BumpCare

Developed a website for pregnant women and nursing mothers to get quality information and resources. With the help of google maps API, I added a map feature to help users to locate the nearest clinics. Also built a due date calculator to help pregnant women track their due delivery date.
