Experience

Frontend Developer | EnoverLab, Lagos, Nigeria (Remote)
April 2023 – August 2023

- Developed a user-friendly and responsive website to assist pregnant women and nursing mothers in accessing vital information and resources.
- Utilized React.JS to integrate Google Maps API, enabling users to easily locate the nearest gynecologists and healthcare facilities in their vicinity.
- Collaborated closely with the design team to create a visually appealing and intuitive website layout that resonated with the target audience.

Frontend Developer Intern | Zuri HNGx (Remote)
September 2023 – October 2023

- Built a screen recording chrome extension that save users recording to a database.
- Collaborated with cross-functional teams to develop a fully functional web app for the screen recorder chrome extension.
- Implemented context API for state management that made collaboration seamless
- Synced users from the web app to the chrome extension

Projects

- **HelpMeOut**
  Spear headed a frontend team of 8 to develop a fully functional chrome extension for screen recording. User can record and get transcript of their recording. They can share the recording with others via email and social media.
